Our Packing Shed and Office are located on the Tyler-Kilgore Highway, thirteen miles East of Tyler. Visitors welcome.

Our Roses are budded, two-year old field grown and have bloomed for one year in the field. You cannot buy better Roses. We guarantee our Rose Bushes to please you. We are listing the varieties of Roses best suited to Southern soils.

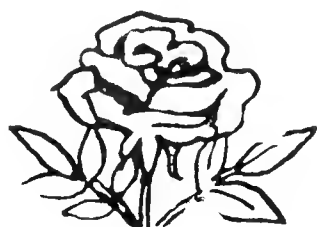

We will deliver our Rose Bushes to you pruned and ready to plant in good growing condition. As we cannot control the weather or growing conditions, we cannot guarantee the plants to live.

We advise early planting, and good soil in a sunny location away from trees and shrubbery. The soil should be spaded or plowed deeply. Make the holes deep and be sure the plants are set low enough so that the bud union will be level with the top of the ground. Pack the soil tightly around the roots, and wet with two or three gallons of water. Keep all fertilizer from direct contact with the roots.

All of our Rose Bushes are two year old plants and will bloom from April until a freeze in the fall.

Prices: No. 1, two year old, field grown, budded Roses, 25c each; \$2.50 per dozen at shed or \$2.75 per dozen postpaid.

We have some plants that are a lighter grade than our No. 1 which we offer you at 15c each, \$1.50 per dozen at shed; \$1.70 postpaid.

The O'Neal Rose Nurseries

ROUTE 1

--

WINONA, TEXAS

PINK VARIETIES

- BRIARCLIFF-SILVER-PINK**—Finest large pointed buds; double high centered; fragrant, lasting blooms. Long stiff stems; disease resistant foliage.
- COLUMBIA**—Standard pink variety which is fine for cutting. Exquisite shape with strong, stiff petals. Long stems and few thorns.
- DAINTY BESS**—Considered the loveliest of all singles, with peach-pink flowers, tinged old rose on the reverse, and lovely coral stamens.
- DAME EDITH HELEN**—Very large, high centered flowers with recurving petals of pure glowing pink. The blooms are on long stems and are intensely fragrant. A bushy upright plant.
- LADY ASHTOWN**—Large pointed buds, open to perfect carmine pink bloom with a golden under-glow.
- MRS. CHARLES BELL**—Exquisite pale salmon Radiance. Lovely blooms of fine globular form. A Rose that anybody can grow.
- MME BUTTERFLY**—Light pink, tinted gold at petal bases; medium size plants.
- MRS. LOVELL SWISHER**—Deep coppery salmon buds opening to delicate salmon-pink, passing to flesh on edges.
- PINK RADIANCE**—Two toned pink flowers, well formed globular shape. Strong, healthy plants that anyone can grow and a wonderful bloomer.
- PERCY V. PENNYBACKER**—One of the modern varieties in which the flowers are very large. The blooms are rose-pink at the center, passing to a darker shade at the outer petals.
- PAUL NEYRON**—A beautiful clear rose pink. Immense in size. A strong upright grower.
- WILLOWMERE**—High-centered flowers of shrimp-pink, shaded yellow. Branching plants.
- EDITOR McFARLAND**—Among the finest of the deep pink roses. The blooms are fragrant carried on long stems. Fine for cutting.
- ANTOINE RIVOIRE** — Silvery pink, full double, blooms freely in spring and autumn.
- PINK KILLARNEY**—Sprakling pink blooms come from long pointed buds. It is a strong free bloomer.
- PINK PEARL**—Massive buds and double flowers of deep rose pink. Produces erect stiff stem flowers.
- RAPTURE**—Similar to Mme. Butterfly but the color is much deeper pink, the blooms are medium size and yield a great number of flowers.
- J. OTTO THILOW**—Large buds of rose pinkborn on long stems, very hardy bush with heavy foliage.
- W. E. NICKERSON**—Hardy upright bush with orange cerise bloom, born singly on long stems, free bloomer.
- WILLIAM F. DREER**—Bud and flower large high centred, shell pink, base of petals yellow born singly on long stems.

WHITE VARIETIES

KONIGIN LUISE—Very rich double high centered white flowers, vigorous plants, one of the best whites.

CALEDONIA—One of the best white Roses. Large, double blooms of fine form on good plants.

F. K. DRUSCHKI—White American Beauty. Magnificent snow-white, deep firm petals, absolutely perfect shape. Very vigorous plants.

KAISERIN AUGUSTE VICTORIA—The most perfect of white Roses, fully double and fragrant.

MME. JULES BOUCHE—Nicely formed white buds show a slight blush in the center as the blooms open.

NATALIE BOETTNER—The blooms are a lovely white, large in size with curved and infolded petals, free bloomer.

DOUBLE WHITE KILLARNEY—White flowers are medium size, double and with a very slight fragrance.

POLYANTHA ROSES

GOLDEN SALMON—A bright and pleasing orange color, makes a splendid display when planted in large groups.

IDEAL—In a mass planting makes a splendid showing of rich dark scarlet blooms.

KIRSTEN POULSEN—The single light red flowers bloom in great sprays, interesting because of its brilliancy.

ELLEN POULSEN—Buds and flowers large, very lasting, bright cherry pink born in clusters.

SALMON SPRAY—Flowers medium size light salmon pink reverse carmine, born in clusters on long stems.

GEORGE ELGER—Buds small golden yellow, very double, born in big clusters.

YELLOW AND MULTICOLORED VARIETIES

EDITH NELLIE PERKINS—Handsome two colored rose, the inside of the petal is salmon pink, the outside is coppery red and orange. Full double.

GOLDEN DAWN—The large buds are bright yellow but sometimes have a tinge of red. The large flowers are clear lemon yellow, very hardy.

GOLDEN OPHELIA—The heart of the flower is golden yellow, shading lighter toward the outer petals. Strong healthy grower and free bloomer.

LADY HILLINGDON—Deep Saffron yellow fragrant flowers that grow lighter toward the edge of the petals. The plant is erect in growth and hardier than most yellows.

LUXEMBOURG—Rich Apricot yellow shaded with copper, marked with lighter yellow at the tips of the petals, free blooming and entirely satisfactory for garden culture.

MEVROUW G. A. VAN ROSSEM — A new rose which is a glowing orange or apricot with undertones of golden yellow. It is a desirable variety, useful for cutting.

YELLOW AND MULTICOLORED VARIETIES (Con.)

MRS. PIERRE S. DUPONT—A bright yellow free blooming rose. One of the finest roses for garden planting. Blooms entire season.

ROSLYN—Golden yellow flowers with shading of orange on reverse petals, the flowers are large, produced in great numbers on strong healthy plants.

SUNBURST—A bright yellow rose, strongly marked with orange at the center, quite fragrant and very attractive.

TALISMAN—The flowers are brilliant scarlet orange and yellow while the buds are red and gold, a vigorous upright flower.

PRES. HERBERT HOOVER—Pink, flame, scarlet, yellow. Large flowers, broad thick petals; clean handsome foliage. Long stems on large plants.

SISTER THERESE—Long pointed slender buds of deep chorme yellow, upright heavy foliage.

RAINBOW—Thornless dainty pink, shading to light pink. The buds are small born on single stems and clusters. A fine rose for borders and cut flowers. Heavy green foliage.

CYNTHIA—Beautiful rose with large finely shaped flowers of a rich ornamental red and veiled mist orange turning gold at the base.

KATHERINE PECHTOLD—A delightful rich shade of old gold and bronzy orange, a free bloomer with long slender buds.

LULU—Buds long pointed deep orange red, flowers large, very lasting born singly and several together on long stems.

CONDESA DE SASTAGE—The large cup shaped flowers, fairly double are distinctly bi-colored glowing orange scarlet on the inside of the petals and bright yellow on the outside.

HEINRICH WENDLAND—Buds very large long pointed unfading nasturtium red reverse golden yellow born on long stems.

RED VARIETIES

AMERICAN BEAUTY—The favorite old fragrant Rose with dark pink flowers shaded deep carmine. Blooms all summer.

AMI QUINARD—Semi-double flowers of deep crimson with blackish shadings. One of the darkest Red Roses.

CHARLES K. DOUGLAS — Crimson-scarlet. Fine, long pointed buds; large loose flowers. Strong branching plants.

E. G. HILL—Large, oval buds and immense dazzling red flowers, shading to darker crimson, on long stems. Plants vigorous.

FRANCES SCOTT KEY—Light crimson. Very large buds of noblest form, extremely double. Hardy, erect, good foliage.

LORD CHARLEMONT—Crimson-scarlet, crisp, stately buds of intense color, almost black shading. Perfect shapely, long pointed buds and large double-sweet-scented flowers.

RED VARIETIES CONTINUED

ETOILE DE HOLLAND—Brilliant red blooms of magnificent size. Perfect in bud, half open or fully developed flowers. A splendid rose and one of the best.

McGREEDY SCARLET—A new red Rose. They are brilliant scarlet, orange yellow at base of petals, the upper portions of same being lightly touched with crimson.

NATIONAL EMBLEM—Dark crimson. Overlaid with velvety shades and vermillion, unusually well-formed. Strong growth and abundant blooms.

RED RADIANCE—Large, even shade of clear red flowers on long canes. Its adaptability to any soil or climate has made this Rose outstanding.

SENIOR — Rich velvety crimson. Strong upright bush.

SENSATION—Large, full double, scarlet-crimson flowers, shaded maroon, with wonderful fragrance.

SOUV d' ALEXANDER BERNAIX—Large cupped blooms full to the center of crimson shaded velvety maroon.

VESUVIUS—Dark velvety crimson born in clusters on long upright stems.

GRENOBLE—A brilliant red, almost scarlet, bloom opens from a crimson bud. One of the best.

GRUSS an TEPLITZ—Large, bushy plants that are covered the entire season with clusters of bright red flowers.

JOHN RUSSELL—The flowers are very large, deep crimson, so dark they are almost black.

SYRACUSE—Bright crimson blooms, stiff upright stems and good foliage.

VATERLAND—Large dark red buds a strong vigorous upright grower always in bloom.

BRILLIANT KILLARNEY—Similar to Killarney but much darker in color; in fact, so dark that it is classed as a red Rose. Flowers semi-double.

CLIMBING ROSES

PAUL SCARLET CLIMBER—Great clusters of extremely bright red blooms. In the spring it is a mass of color. Blooms about 2 months in the spring.

CL. PRESIDENT HOOVER—Pink, flame, scarlet, yellow. Large flowers, broad thick petals; clean handsome foliage. Monthly bloomer.

CL. RED RADIANCE—A strong growing plant carrying many flowers, identical in color and form with the bush rose of the same name. Monthly bloomer.

CL. TALISMAN—Identical in color and form of bloom of the famous bush variety. Monthly bloomer.

CL. PINK RADIANCE—Same color and form as bush variety. Monthly bloomer.

CL. TEPLITZ—Strong growing plants that are covered with clusters of bright red flowers. Monthly bloomer.

CL. G. A. VAN ROSSEM—Glowing orange of apricot with undertones of golden yellow. Very hardy.

SCORCHER — Brilliant scarlet rose born on long stems blooms early in the spring and the second time a few weeks later.
